- Project Engineer: Principal Engineering

Project Description – Scope of Work

The work consists of restoring and elevating a historic residence for use as a public facility. To maintain the historical integrity of the building, the salvaging and recycling of existing materials shall be incorporated with new materials. Additional work includes a toilet room, concrete sidewalks, some drainage and electrical work. A new foundation with concealed structural fastenings is also required.

Construction will consist of the following:

- ❖ Restoration of historic residence
- ❖ Installation of rest room facilities
- ❖ Installation of sidewalks and drainage

Project Locations

433 Lamarque St.
