

City of Mandeville

Planning & Zoning Commissions

To determine if current planning & zoning guidance, and city ordinances, continue to reflect the overall community view on these matters, a special public hearing is scheduled.

Public Hearing

Wednesday, February 7th 6:00 p.m.

Mandeville City Hall

Items discussed will be possible CLURO amendments related to:

- (1) Definitions of pervious and impervious coverage and whether or not swimming pools should count toward impervious calculations.
- (2) Increasing setbacks for accessory structures including swimming pools on residential properties from 5' to 10'.
- (3) Requirements for locating/parking/storing utility trailers and recreational vehicles including boats, trailers, motor homes, etc. on residential properties.
- (4) Real Estate Signage on commercial properties

The Commissions would like to have broad public input on these issues, and urges all interested parties to attend this special meeting and voice their opinions.
